

ICE CUBE MAKERS

Exterior in stainless steel, thermoformed plastic interior.

Slide-out air filter :

- slides out easily with no need to remove the front panel;
- prevents dust formation on air condensers.

Limescale removal system:

A rubber container easy to remove, collects the limescale and residues that form in the water circuit; it allows an easy access to the pump filter for limescale removal.

Antibacterial coating

All ice cube maker models are protected against bacteria using AGION, a compound containing powdered silver. All plastics in contact with water contain AGION, sharply reducing bacteria and algae formation.

ICE CUBE MAKERS

TECHNICAL NOTICES

Ice typology

Hollow Cube

21 g.

Full Cube

20 g.

Granular

Residual water content 25%
